AMENDMENT

Dear Sir:

In response to the Office Action mailed April 22, 2002 (the "Action"), please make the following amendments. A copy of the amendments with the changes shown is attached entitled "VERSION WITH MARKINGS TO SHOW CHANGES MADE."

In the claims:

Please substitute the following clean-format amended claims for the pending claims of like number pursuant to 37 C.F.R. 1.121.

1. (Amended) An integral source material having at least one nuclide that is activatable by exposure to radiation, the nuclide is a chemically bound constituent of a polymer chain of the integral source material, wherein the integral source material is configured before activation to provide a device wherein the device is selected from the group consisting of test-objects, rectangular and disc shaped sources configured to radiate an area, radioactive enclosures, flood sources, nuclear imaging devices, shrouds and excitation sources for energy-dispersive fluorescence analysis.

Please cancel Claim 2.

Please add the following new claims.

5. (New) An integral source material according to Claim 1, wherein the device comprises a miniature checkerboard comprising alternating active and inactive squares, the active squares containing target nuclides
